

# Your results

You've completed all the assessments. Take a look at your results below.

## Your discoveries

Based on your responses, here are some characteristics that make you unique compared to everyone else.

Scholar

Goal-Driven

Dominant

 Share RARE—5.3% OF USERS

# You are a Scholar

Independent, Thoughtful, Dependable

Scholars are intellectuals that pay attention to fine details. They spend a lot of time in their mind investigating and exploring new ideas. They usually like to pair their findings with data that can back it up. Scholars are very orderly in their thought processes. They usually prefer structure in their ideas and thoughts over ambiguity.

💎 RARE—20% OF USERS

# You are dominant

Dominant people are assertive and competitive.

Dominant people are high on the social ladder. They value their place above others and the benefits afforded by that. They are assertive and get satisfaction from overcoming obstacles in order to advance their social standing. They thrive in competitive environments, where they often produce their best work. They often see themselves as good leaders, and like having authority over other people.
